

About the Child-Raising Assistance Website

GENKIDS!!NET

& Handbook

In Minamisoma, we have a website for assistance with child raising. This handbook can be used together with GENKIDS!!NET but was published for those that don't use a smartphone or a computer. We hope that information can be obtained easily, parents and child-raising support groups will be connected, and that people will learn things they didn't know and have a more enjoyable and happy experience.

Behind the Name:
GENKIDS!!NET

Our name originated from our hope that children will grow up healthy, and from our goals to be a community full of energetic children by exchanging childcare information with others.
